February 2024

Dear Members of the Cooperative Boards of New York State:

I hope this message finds you and your communities well. Following in-depth conversations with educators and stakeholders across the state to advance our mission to raise the knowledge, skill, and opportunity of all the people in New York, we have identified critical areas requiring our collective focus and action. These areas are funding equity, opportunities, and supports for increased collaboration between districts with the support of Boards of Cooperative Educational Services (BOCES), high school opportunity for all students, data modernization, and reimagining teacher and leader preparation and development - stand at the core of the Board of Regents and the New York State Education Department's (NYSED) legislative and state aid priorities.

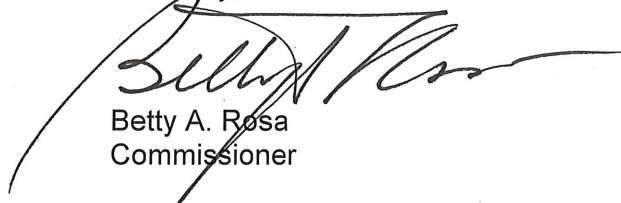

Deeply rooted in the values of lifelong learning, equity, excellence, access, service, and stewardship, these priorities will help bridge the opportunity and transcript gap that faces students from historically underserved communities. These include those living in rural communities and our largest cities. We hope that *the Portrait of Graduate* developed by a robust stakeholder input process and an extensive review of relevant research, literature, and experience shared in the New York State Blue Ribbon Commission on Graduation Measures Report¹ will serve as a north star as we prepare all students for the challenges and promise of the 21st Century workforce.

Supporting students to achieve the goals set forth in the Graduation Measures Report will take regional collaboration. BOCES have long exemplified leadership in pioneering regional educational opportunities that broaden access to advanced coursework, enhance workforce development through career and technical education opportunities, integrate K-12 education with higher learning by fostering dual enrollment, and boldly rethink high school graduation pathways to make this dream a reality. Ensuring that every student graduating from high school in New York is fully equipped for meaningful careers, college, and civic engagement in a global context remains our shared and unwavering goal.

As we navigate this pivotal moment in New York's educational history, it is essential that we hold true to a system of education that inspires and ignites teaching and learning through a commitment to a P-20 continuum, equity, social-emotional learning, and safe and supportive schools and communities. As we work with BOCES to frame the future of New York's educational landscape I am reminded of a quote by Helen Keller - *alone we can do so little; together we can do so much*. This reminds us that collaboration remains at the heart of our work to build a more promising future for all students.

Best wishes for a continued successful and transformative year ahead.

Sincerely,

Betty A. Rosa
Commissioner
